Looking good.

If necessary - phone me at home tonight. Since my sister is Depute Clerk to the C of S - I can probably generate a response tomorrow if more conventional routes fail (and she is around this evening)

Colin

Rachel is in with Richard Henderson, Patrick Layden etc right now. She may wish to speak with you when she gets back from that meeting (if it is before your flight is called).

Latest is that FM statement is going ahead and he will look at text later this evening. We are busy trying to finalise PP speech, Q & A lines and letter to INCAS setting out the package PP will announce tomorrow.

Word from FM's office is that FM statement is also likely to be trailed in papers tomorrow morning (noise emitting from the bureau we assume). We will forewarn INCAS of this in general terms. At FM's request we are also trying to sound out the churches. I have left 2 messages with CofS but no reply to those so far.

Hope this brief summary is helpful.
