The First Minister and Mr Peacock had a quick chat about the statement and debate today before Cabinet. One action point came out. PP and First Minister would be grateful for up to date briefing about current arrangements for child protection - this should cover issues re Disclosure Scotland and about the register of unsuitable adults.

You should also know that the First Minister plans to speak to Nicola Sturgeon and David McCletchie about the statement later this morning. He has read his statement but has not signed off as yet. I will let you know when he does.
