I see from the emails that things are hotting up in the last 24 hours. The seminar has finished and I am now at Heathrow. Not very private place - so I can talk, but not very openly. Expect flight to be called around 18.10

Anything we need to discuss - or is it all under control? (The email from the LA was very helpful, and I think we have the basis for the reassurance sought by FM - but I assume my view of events is very partial!)

To see the helpful response from Quarriers. We will wish to discuss how much of this, Barnardo's, COSLA's and the Care Commission's replies we wish to reflect in the Minister's opening statement.
